SHADMAN AHSAN

IT Operations & Systems Administration Specialist · M.S. Candidate

Marshall, MN 56258 • +1 (507) 850-3155 • shadman_ahsan@yahoo.com • shadman.ahsan.us@gmail.com • linkedin.com/in/shadman-ahsan • github.com/shadman1996

PROFESSIONAL SUMMARY

Results-driven Enterprise Systems and IT Operations Specialist with 5+ years of hands-on technical experience spanning Microsoft Windows Server administration, endpoint provisioning, production SQL database maintenance, and network troubleshooting. Currently pursuing an M.S. in Cybersecurity at Southwest Minnesota State University (SMSU) in Marshall, MN, while serving as Graduate Assistant at the university Technology Resource Center (TRC). Proven track record diagnosing tier-2/tier-3 hardware and software anomalies, optimizing Mean Time to Resolution (MTTR) through structured ITSM workflows, and maintaining 99.9% system availability. Local to Marshall, MN with immediate availability for the Summer 2027 IT Operations Internship at CJ Schwan's.

TECHNICAL COMPETENCIES & SYSTEMS EXPERTISE

Systems & Servers: Microsoft Windows Server (2016/2019/2022), Active Directory (AD), Group Policy Objects (GPO), Hyper-V, VMware ESXi, Linux (RHEL, Ubuntu), macOS, Endpoint Provisioning & Automated OS Imaging

Infrastructure & Networking: TCP/IP, DNS, DHCP, LAN/WAN Configuration, VPN Tunnels, Subnetting, VLANs, Wireshark Packet Analysis, Network Switch/Router Configuration, Hardware Diagnostics

Identity & Access (IAM): Microsoft Entra ID (Azure AD), Multi-Factor Authentication (MFA), Role-Based Access Control (RBAC), Single Sign-On (SSO), Account Lifecycle Provisioning

ITSM & Operational Governance: ITIL Framework, ServiceNow, Jira Service Desk, Incident & Change Management, SLA Compliance, Technical Runbooks & SOP Authoring, MTTR Optimization

Databases & Automation: PowerShell Scripting, Bash, Python, SQL (MySQL, PostgreSQL, Oracle), Automated System Backups, Disaster Recovery Failover, System Performance & Alert Monitoring

PROFESSIONAL & TECHNICAL EXPERIENCE

Graduate Assistant — Technology Resource Center (TRC) · **Southwest Minnesota State University** Marshall, MN | Jan 2026 – Present

- Lead **tier-2 technical support escalations** and hardware/software troubleshooting across 100+ campus computer labs, faculty workstations, and classroom AV infrastructure, ensuring zero disruption to academic operations.
- Administer campus **Identity & Access Management (IAM)** and endpoint security via Active Directory and Azure AD, managing account provisioning, MFA compliance, and Group Policy permissions for thousands of users.
- Support deployment and maintenance of **Windows Server environments**, managing network shared drives, automated workstation imaging, and patch deployment schedules.
- Utilize enterprise **ITSM ticketing systems** to monitor support trends, perform QA on ticket resolution workflows, and systematically drive down Mean Time to Resolution (MTTR).
- Author and audit **Standard Operating Procedures (SOPs)** and technical runbooks for hardware repairs, OS reimaging, and network switch port diagnostics, eliminating operational downtime.

Management Information System (MIS) Specialist · **Helen Keller International** Dhaka, Bangladesh | Sep 2023 – Mar 2025

- Directed enterprise **systems administration and IT operations for 700+** corporate and remote personnel across multiple branch offices, configuring VPN tunnels, resolving complex hardware anomalies, and standardizing OS builds.
- Maintained **99.9% system availability** across production SQL databases and enterprise application servers, executing scheduled automated backups, integrity tests, and disaster recovery failover protocols.
- Engineered automated data pipelines and performance monitoring dashboards, tracking server uptime, network traffic, and system error rates to proactively address infrastructure bottlenecks.
- Supervised IT hardware lifecycle management, auditing physical network infrastructure, server racks, and peripheral equipment to ensure regulatory compliance and operational readiness.
- Conducted root-cause analysis on recurring IT incidents and delivered structured technical trainings, reducing monthly helpdesk escalations by **25%**.

Assistant Coordinator — MIS & IT Operations · **Sajida Foundation** Dhaka, Bangladesh | Jun 2022 – Aug 2023

- Administered enterprise Salesforce CRM and localized IT systems for **1,000+ distributed users**, enforcing Role-Based Access Control (RBAC) and strict data governance policies.
- Configured and maintained local area networks (LAN), Wi-Fi access points, network switches, and peripheral hardware for enterprise program operations across 12 field facilities.
- Managed regional LAN/WAN network infrastructure, secure enterprise VPN tunnels, and endpoint security across district offices, resolving escalated systems issues.
- Automated weekly data backups, verified system logs, and implemented security controls preventing unauthorized access.

EDUCATION & ACADEMIC APPOINTMENTS

Master of Science (MS) in Cybersecurity · **Southwest Minnesota State University** Marshall, MN | Expected Graduation: Dec 2027

- **Graduate Assistantship:** Technology Resource Center (TRC) Management & Systems Support.
- **Relevant Coursework:** Network Security & Protocols, Operating Systems Architecture, Secure Software Engineering, Digital Forensics, Cybersecurity Strategy & Governance.

Bachelor of Science in Computer Science and Engineering · **Independent University, Bangladesh** Dhaka, Bangladesh | Conferred: May 2021

- **Relevant Coursework:** Computer Networks, Operating Systems, Database Management Systems (DBMS), Systems Analysis & Design, Data Structures & Algorithms, Object-Oriented Programming (OOP).
